*Because of space limitations, this is a condensed report. The complete report which was accepted by the Executive Council November 12, 1960, is available on request.

**Taken from the September 5, 1960, report of Lahr & Lahr, Certified Public Accountants, which states: "Our examination was made to verify the cash receipts and disbursements of the General Fund of the Association and of the 1960 Convention Fund. It should be noted that Exhibit "A", Statement of Receipts and Disbursements, covers a fourteen-month period beginning May 1, 1959. This is because the cash transactions attributable to Dr. Kennard during the month of May, 1959 are not included in the previous audited report even though it was dated May 31, 1959."

†In addition to this amount, the journal is further supported by Association funds furnished as income to Bruce Publishing Company from non-member subscriptions, sale of advertising, reprints, etc., amounting to approximately \$18,000.00. In addition, the 16-page abstract section is supported by a special contract providing \$4,750.00 for the calendar year 1960.
