

Aerospace Medicine and Human Performance

JUNE 2020 VOLUME 91 NUMBER 6

PRESIDENT'S PAGE

469 What a Way to Start the Year

C. DeJohn

RESEARCH ARTICLES

471 Voice Reactivity as a Response to Acute Hypobaric Hypoxia at High Altitude

M. Van Puyvelde, X. Neyt, W. Vanderlinden, M. Van den Bossche, T. Bucovaz, T. De Winne, and N. Pattyn

479 Characterizing Individual Differences in a Dynamic Stabilization Task Using Machine Learning

V. P. Vimal, H. Zheng, P. Hong, L. N. Fakharzadeh, J. R. Lackner, and P. DiZio

489 Attention and Entropy in Simulated Flight with Varying Cognitive Loads

T. Lu, Z. Lou, F. Shao, Y. Li, and X. You

496 Helicopter Hoist Performance in Novice and Experienced Hoist Operators

M. T. King, S. Lenser, D. Rogers, and H. Carnahan

501 In-Flight UV-A Exposure of Commercial Airline Pilots

K. A. Baczynska, S. Brown, A. C. Chorley, J. B. O'Hagan, M. Khazova, A. Lyachev, and M. Wittlich

511 Pilots' Visual Scanning Behaviors During an Instrument Landing System Approach

Y. Lu, Y. Zheng, Z. Wang, and S. Fu

518 Vigilance Aid Use and Aircraft Carrier Landing Performance in Pilots of Tactical Aircraft

C. S. Schallhorn

TECHNICAL NOTE

525 Dynamic Countermeasure Fabrics for Post-Spaceflight Orthostatic Intolerance

R. M. Granberry, K. P. Eschen, A. J. Ross, J. M. Abel, and B. T. Holschuh

COMMENTARY

532 Towards the Affective Cognition Approach to Human Performance in Space

N. Mammarella

LETTER TO THE EDITOR

535 Letter to the Editor re: Genetic Testing of Pilot Applicants

FEATURES

537 Science & Technology Watch: The Role of Artificial Intelligence (AI) in Space Healthcare —I. Cinelli

540 This Month in Aerospace Medicine History: June—W. W. Dalitsch III
