

## Annual Meeting Abstracts

### Abstract Statistics and Abstract Not Presented

For the AsMA 91st Annual Scientific Meeting, held in Denver on August 30-September 2, there were 424 abstracts accepted, of which 12 were part of workshops held pre- and post-meeting. Due to the COVID-19 pandemic and associated travel restrictions, we gave presenters the option to pre-record their presentation if they would be unable to attend. We had 91 pre-recorded abstracts presented as part of slide and panel sessions. There were 11 panels cancelled including 50 abstracts. Additionally, 50 slides and 21 posters were not presented.

Please refer to the June issue of *Aerospace Medicine and Human Performance* to view the abstracts. Abstracts not presented should NOT be referenced in research articles.
