

Aerospace Medicine and Human Performance

JANUARY 2025 VOLUME 96 NUMBER 1

EDITORIAL

1 A Year of Change

D. G. Newman

PRESIDENT'S PAGE

2 Professionalism in Aerospace Medicine

R. Orford

RESEARCH ARTICLES

4 Performance of Fluid Infusion Systems in the Changing Atmospheric Pressures Encountered in Aviation

K. S. Fan, M. Paterson, F. Shojaee-Moradie, A. Manoli, V. Edwards, V. Lee, E. Hutchison, R. M. Gifford, I. T. Parsons, G. Koehler, C. Mathieu, J. K. Mader, B. R. King, D. Russell-Jones, and the EASA Consortium

12 Medical Consequences After a Fume Event in Commercial Airline Crews

M. Klerlein and L. Dubiez

18 Cognitive and Emotional Impacts of Face Pareidolia Application Among Pilot Students

G. Akdeniz, H. Eren Yilmaz, and H. Geza

23 Trends and Factors Associated with Insomnia and Sleep Apnea in U.S. Military Aviators, 2006–2022

J. A. Caldwell and J. J. Knapik

31 Association of Total Flight Hours and Health Conditions with Sick Leave Use Among Civilian Pilots

B.-S. Han, E.-H. Choi, and M.-S. Kim

39 The Feeling of Fatigue Scale for Brazilian Fighter Pilots

D. Milioli Ferreira, P. Morisco de Sá, and D. Bittencourt Ferreira

45 Neurophysiological and Cognitive Changes Induced by the Acute Head-Down Tilt

M. Sharma, S. Gaur, H. Pawar, N. Yadav, B. Thondala, S. Kumar, K. Kishore, K. Ray, and U. Panjwani

REVIEW ARTICLE

53 Abating Heat Accrual During Exercise in Microgravity and Implications for Future Long-Term Missions

K. Maguire, M. Wydotis, L. Bollinger, and J. Caruso

SHORT COMMUNICATIONS

62 Lung Function Changes with Acute +Gz Exposure as Assessed by Impulse Oscillometry

S. J. W. M. Cornelissen, E. Frijters, and G. Gray

67 Mars Mission Communication Delays and Impact on Mission Controller Performance, Workload, and Stress

M. Diamond, G. R. Leon, and P. de León

71 Evidence-Based Aeromedical Assessments

T. Saehle

FEATURES

78 Aerospace Medicine Clinic—J. J. Pavelites II, J. Solak, and J. J. Pavelites

82 This Month in Aerospace Medicine History: January—W. W. Dalitsch III
